

specialist in disposable pipingbags

Dispenser

Whoever comes to know One Way, will recognise the added value of disposable piping bags for the professional cook. An even smarter way of using One Way's sturdy and highly convenient products is to mount the roller with use-and-throw piping bags on a handy dispenser.

One Way has a dispenser suitable for most variants and sizes. Each new version is a clean, hygienic piping bag. That means you no longer have to search for a clean piping bag, and can always access a new bag with a single motion of the hand.
